## **NOTICE REGARDING TRASH SERVICES**

The Nebraska Legislature recently amended the statutes governing sanitary and improvement districts ("SIDs") to confirm that SIDs have authority to contract for trash collection services for the benefit of their residents, just as the City of Omaha and other municipalities contract for trash collection services on behalf of their residents.

As a result of this recent change in the law, the Board of Trustees of Sanitary and Improvement District No. 438, which is the SID for The Grove, is considering entering into a contract for trash collection services for residents of The Grove. If SID 438 proceeds with this proposal, all residents of The Grove would receive weekly trash collection through the SID's contractor and all residents would be able to discontinue their separate privately-contracted for trash collection services. Note that SID 438 has not yet contracted for trash collection services nor has it even made a final decision regarding whether it will proceed with such a contract. Accordingly, you should not discontinue any private trash collection service at this time. If SID 438 decides to proceed with this proposal, you will receive notice at a later time with details regarding the new service, including when such service would begin.

The Board of SID 438 requested that The Grove Homeowners Association assist in notifying residents of this potential change and in seeking feedback from residents before SID 438 proceeds with a trash collection contract. If you have any questions or comments which you would like to share with SID 438 before it proceeds with a trash collection contract, you can contact David Mayer (who is President of the HOA and also on the Board of Trustees of SID 438) at [dmayer@ddlawgroup.com](mailto:dmayer@ddlawgroup.com).
